Professional Summary

Results-driven PL/SQL Developer with over 5 years of enterprise experience designing, developing, and optimizing database solutions within Oracle EBS R12 environments. Expertise in complex query optimization, logical data modeling, and performance tuning for high-volume financial systems processing upwards of 30GB of daily data. Proven track record of improving database scalability, automating batch workflows utilizing Control-M, and establishing continuous integration pipelines via GitLab and Jenkins.

Professional Experience

IT Analyst

August 2024 - Present

Tata Consultancy Services (TCS), Mumbai, Maharashtra

- Designed and deployed enterprise database solutions for Tier-1 clients, improving system integration and increasing operational efficiency by 20%.
- Evaluated complex business requirements and authored detailed technical specifications to align database architecture with corporate objectives.
- Managed the migration of legacy data systems to modernized platforms, improving system scalability and reducing ongoing maintenance costs.
- Executed root cause analysis on critical system bottlenecks utilizing AWR and ADDM reports, reducing overall system downtime by 30% through targeted performance tuning.
- Mentored junior database developers, establishing code review standards and promoting best practices in PL/SQL development.

System Engineer

April 2023 - July 2024

Tata Consultancy Services (TCS), Mumbai, Maharashtra

- Directed the database architecture for a Tier-1 global financial services client's Revenue Generation project, managing the daily computation and movement of 30GB of enterprise data.
- Engineered data-driven financial processing modules, contributing to a measurable 15% increase in recognizable revenue channels.
- Performed comprehensive query optimization and execution plan analysis using TKPROF and SQL Trace, reducing average query execution times by up to 50% and increasing system efficiency by 30%.
- Automated critical ETL workflows and batch processing using Control-M, reducing manual operational effort by 40%.
- Evaluated and enforced code quality standards through rigorous peer code reviews and version control management.
- Recognized as **Star of the Quarter** (2023) for technical excellence and reliable project delivery.

Assistant System Engineer

April 2022 - March 2023

Tata Consultancy Services (TCS), Mumbai, Maharashtra

- Authored and maintained complex PL/SQL procedures, triggers, and functions to support high-throughput financial transactions processing gigabytes of daily data.
- Programmed and configured Control-M job schedules to ensure reliable execution of daily database maintenance tasks.
- Reduced manual database administrative tasks by 40% through the implementation of targeted automation scripts.
- Recognized as **Star of the Month** (2022) for consistent delivery of high-quality database solutions.

Assistant System Engineer Trainee

April 2021 - March 2022

Tata Consultancy Services (TCS), Mumbai, Maharashtra

- Assisted in full-lifecycle PL/SQL development, including logical database design and query formulation.
- Provided technical support for enterprise Oracle Database environments and resolved Tier-1 data processing incidents.

Projects

Oracle EBS R12 Revenue Generation Platform

- Designed the database schema and PL/SQL logic for a major revenue enhancement initiative for a Tier-1 financial client within an Oracle EBS R12 environment.
- Managed the ETL architecture and successful daily processing of 30GB of volume data, ensuring high availability and transactional data integrity.
- Optimised high-impact financial queries via index management, TKPROF, and execution plan analysis, improving batch processing efficiency by 30%.
- Implemented robust job scheduling architectures utilizing Control-M to guarantee reliable overnight processing and reporting.

Education

Bachelor of Engineering in Computer Engineering

August 2017 - November 2020

University of Mumbai, Mumbai, Maharashtra

Cumulative GPA: 6.6/10

Diploma in Computer Engineering

August 2014 - June 2017

Maharashtra State Board of Technical Education, Maharashtra

Diploma GPA: 77.75%

High School

St. Anthony's Convent Higher Secondary School, Badlapur

10th Grade: 61.40%

Technical Skills

- **Database Technologies:** Oracle Database, Oracle EBS R12, PL/SQL Development
- **Core Competencies:** Query Optimization (AWR, ADDM, TKPROF), Performance Tuning, Database Architecture, ETL Processing, AI Integration for Oracle EBS R12
- **Tools & Automation:** Control-M Batch Automation, Git/GitLab, Jenkins (CI/CD)
- **Soft Skills:** Logical Requirements Analysis, Technical Mentorship, Cross-functional Collaboration

Languages

English, Hindi, Marathi
